

## Example for the preparation of an abstract for ISCS-2005

M. Walther<sup>1\*</sup>, O. Ambacher<sup>2</sup> and H. Schwörer<sup>1</sup>

<sup>1</sup>*Fraunhofer Institut for Applied Solid State Physics, Tullastr. 72, 79108 Freiburg, Germany*

<sup>2</sup>*Technical University of Ilmenau, Center for Micro and Nanotechnology,  
Gustav-Kirchhoff-Str. 7, 98639 Ilmenau, Germany*

These instructions for authors should be read carefully. The document follows its own guidelines closely, but there are inevitably minor deviations between the different formats.

Please use Word 6 or later and ISO A4 (210 mm x 297 mm) size paper, making sure that text and other materials leave 2.5 cm margins on top/bottom/left/right. If you cannot set up for A4 or metric, use the 8 ½ x 10 inch North American standard and leave a 1 inch margin on top/bottom/left/right.

This document has been set up with a style sheet that should give the correct layout automatically. The title is in style 'Abstract-Title', authors' names are in style 'Authors', followed by the affiliation in style 'Affiliation'. The body of the text is written based on style 'text'. Please use these styles to the maximum extend possible. They include the spacing between different lines automatically, therefore it should not be necessary to add blank lines.

Please identify the corresponding author in the footnote of the first page with email address, phone and fax number.

The second page should be used for figures only. No reference to the figure page should be made on the text page. Figures should be clearly labeled and captioned so that they can be understood independent of the text page. Both pages, the text page and the second page with figures will be printed in the abstract booklet.

Thank you very much for your cooperation.

## **Figures**

Fig. 1. This is an example of a figure caption.
